 PROFILE

Senior Frontend Engineer with 4+ years specializing in React.js ecosystems — from **Healthcare SaaS to music streaming PWAs**. Known for **cutting load times by 30%, reducing dev time by 40%**, and building scalable component libraries used by thousands of daily users.

 PROFESSIONAL EXPERIENCE

- GlobalLogic India, Senior React Developer

02/2025 – Present | Noida

 - Modernizing a **Healthcare SaaS** platform by refactoring legacy **React.js** modules using **React Hooks**, **code splitting**, and **lazy loading**, improving **Core Web Vitals** and reducing technical debt across **micro-frontend** architecture.
 - Delivering scalable frontend features using **Redux-Saga**, **Redux Toolkit**, and **Vite** within **Agile/Scrum** teams, conducting **code reviews** and optimizing **bundle size** for enterprise-level performance.
- Nevina Infotech Private Limited, Reactjs Developer

01/2024 – 09/2024 | Ahmedabad

 - Engineered a **music streaming PWA** using **React.js**, **TypeScript**, and **Redux Toolkit**, optimizing **REST API** integration and reducing **page load speeds by 30%** through **memoization** and **lazy loading**.
 - Implemented **React Hooks** to eliminate unnecessary **re-renders** and collaborated with designers via **Figma** for pixel-perfect, **cross-browser compatible** UI delivery in an **Agile** environment.
- Netfillip Technologies Private Limited, Reactjs Developer

04/2022 – 09/2023 | Ahmedabad

 - Built a **reusable React component library** for a large-scale **e-commerce platform** using **Tailwind CSS**, **Flexbox**, and **CSS Grid**, cutting development time by **40%** and serving thousands of **daily active users**.
 - Integrated **RESTful APIs** using **Axios** and **React Query**, implemented **React Router** for **SPA navigation**, and mentored **junior developers** through code reviews and pair programming.
- Addan Digital Solutions Private Limited, Web Designer

04/2021 – 03/2022 | New Delhi

 - Developed **pixel-perfect, mobile-first** interfaces using **HTML5**, **CSS3**, and **JavaScript** with **Figma** handoffs, achieving a **20% increase in mobile retention** across **Agile** workflows.

 PROJECTS

- [Vrooom – Bike Rental Platform, Full-Stack React Application](#) 

04/2026 – 05/2026

Full-Stack React Application

 - Built a production-ready bike rental platform using **React 19**, **TypeScript**, and **Tailwind CSS 4** with **Firestore Authentication**, featuring protected routes, role-based access control, and real-time data synchronization across user and host dashboards.
 - Architected a **custom API client** with automatic token refresh and error handling, connecting a React frontend to a **Node.js backend deployed on Render**, handling 300+ bike listings with type-safe TypeScript interfaces and optimized REST API calls.
- [QuizzicallyApp](#) 

04/2026 – 04/2026

React Quiz Application

Built an interactive **trivia quiz PWA** using **React 18**, **Vite**, and **Tailwind CSS**, fetching dynamic questions from the **OpenTDB REST API** with **HTTP error handling** (429 rate limiting) and **ErrorBoundary** class components for graceful UI crash recovery. Implemented **real-time answer grading**, **score evaluation**, and **toast notifications** using react-hot-toast, achieving a clean, responsive UI with conditional styling via clsx and tailwind-merge.
